We are committed to supporting you as we navigate the impact of the latest announcement regarding the current Lockdown. Like many others, our staff are managing increased pressures including children at home. The sessions are the best way to have your queries answered quickly. Each session will have a member of the grants team, finance and partnerships so that we should be able to provide support and answers then and there. However, if you're unable to attend session please do get in touch on 01904 929500 or and we will get back to you as soon as possible.

Wishing you the best.
